I am a technology enthusiast and constantly seek the next challenge. Currently, I am pursuing a Bachelor's degree in **Computer Science** at Faculdade Descomplica, which provides me with a solid foundation for my work.

My journey in programming began with the basics: **Java** and **C** languages (programming logic, algorithms, and object-oriented programming) and quickly expanded to include a wide range of technologies, such as *HTML, CSS, JavaScript, C#, Python, SQL*, and the *R language*.

Additionally, I am familiar with version control tools like **Git** and **GitHub**.
